### Description

The Toolmaster Vibration Damped Air Hammer is built to industrial standards for the professional user. It features a low weight housing with a rubberised comfort grip. The unique isolated cylinder design reduces vibration by 50% while the extra length in the cylinder provides harder hitting power. The tool accepts standard 10mm hex shank chisels which stop the chisels from freely rotating whilst in operation. Designed for cutting metals, shearing bolts and rivets and driving out pins used on cars, trucks, recreational vehicles and structural maintenance and repair.

### Features

- Extra length cylinder for harder hitting power
- Lightweight robust aluminium alloy casing with composite body
- Front exhaust designed to clear chips & debris
- Quick action retainer chuck allows user to change chisels quickly
- 10mm Hex shank to stop chisels from spinning whilst in operation
- 70 degree handle grip designed for user comfort
- High power to weight ratio

### Includes

- 1 x Quick action retainer chuck
- 1 x Spring retainer
- 5 x Hex shank 175mm long chisels
- - Claw ripper & panel cutter
- - 20mm flat
- - Spot weld cutter
- - Tapered point
