Description

This engine crane has a long stroke lifting ram, a single action pump with a maximum load capacity of 1000kg. Very simple to use manual hydraulic operation. The jib extends to the desired lifting capacity of 700kg, 800kg, 900kg or 1000kg secured by a single locking pin. Mounted on 4 castor wheels & T-bar handle for excellent manoeuvrability around the workshop.

The lifting range is 0-2500mm so an engine can be lifted clear out of the engine bay with little effort. With great stability of its wide legs, this crane can also be used to lift machines or other heavy items, making for an excellent piece of equipment for the workshop or warehouse.
