Voltage / Amperage (V / amp):	240
Machine Dimensions (LxWxH) (mm):	~
Tooling Holder/Power Unit Dimensions (LxWxH) (mm):	~
Nett Weight (kg):	454

Description

Need precise speed control for delicate jobs? That's why we added an inverter drive to our PH-19 and created a variable-speed power hammer that more shops can afford.

Recommended for: Small automotive and airplane shops with limited space and/or budgets, as well as schools and educational institutions.

Features

- Delivers enough force to shape 1.6mm mild steel
- 482mm throat allows you get deep into panels and covers most metal shaping projects
- Adjustable speed from 100 to 1,500 to beats per minute
- You can control the speed either by foot pedal or the control box on the side of the machine
- Plug it into any 240-volt power outlet
- Quick-release tooling handle lets you start in the middle of a panel while keeping the pressure constant
- Tooling changes take just a few seconds and don't require any hand tools
- Comes standard with a mini thumbnail shrinker die set
- Wide variety of tooling available for shrinking, stretching, planishing, and drastic metal shaping
- Heavy 12.7mm plate steel frame and rigid steel stand enable this power hammer to hit with full force and prevent deflection
- Small footprint saves space in smaller shops
- Wheels on the base make it easy to move out of the way
- Tooling and replacement parts are available

Includes

- 1005979 - Master Flat Top Die - (B8957)
- 3" (76.2mm)

Product Brochure For K4030

- 1005985 - Doming Bottom Die - (B8967)
- 12" (304.8mm) radius, 3" (76.2mm) face diameter
- 1005986 - Doming Bottom Die - (B8969)
- 24" (609.6mm) radius, 3" (76.2mm) face diameter
- 1005987 - Doming Bottom Die - (B8971)
- 36" (914.4mm) radius, 3" (76.2mm) face diameter
