Description

With a 5mm table surface thickness it gives you a solid surface to suit most welding applications, the tabletop is 600 x 900mm giving you a well-proportioned size that won't take up too much space in your workshop. The 3D design gives you the ability to fix to not only the top but also the sides of the table & with an all-metal self-weld frame with 100mm side plates & 100 x 5mm steel webbing ribs to ensure the table surface remains flat during & after assembly. The heavy duty 50 x 50mm powder coated SHS steel legs comes standard with castor mounting plates, simply cut the legs to your desired length, weld on the castor plates add the castor wheels, your table is now mobile.

To make this a functional package we have included is our 40pc welding table clamp kit, a magnetic mig torch holder & a set of 4 castor wheels to create a great little mobile welding station making it the perfect solution for both welding and clamping applications.

NOTE - THIS ITEM COMES FLAT PACKED & REQUIRES ASSEMBLY & WELDING. Additional equipment including a welder is required for assembly, please review our construction guide via our downloads for a list of the required items
