### Description

The Professional deburring discs feature a double row of abrasive which provides greater flexibility. By dividing the facing width this design allows the disc to provide a uniform pressure ratio and provides better results on smaller cut outs with profiles.

### Features

- 80G Zirconia suitable for deburring and strong internal and external edge rounding of mild steel and stainless steel with a larger radius
- Unique design consisting of Non-woven abrasive and Zirconia abrasive
- Double row abrasive provides greater flexibility and better results
- Made in Germany
