Description

Premium A-grade Cowhide Leather, supple, comfortable and long-wearing kevlar stitching for maximum heat & abrasion resistance

If you need the protection of a full leather welding jacket, you can't go past the "Promax BL7" ! A special design which offers up to 40% reduced weight and superior comfort - without compromising durability and long wear-life. Opening is off-set to avoid the high wear area directly in front of the operator. Hook and loop closure avoids the added weight and discomfort of metal studs. Extended back offers better protection when bending, kneeling, etc. Selected premium cow hide leather, kevlar stitching and fully welted seams for longer garment life. Adjustable cuffs & collar.

Features

- WHY USE WELDCLASS 'PREMIUM BLUE' LEATHER JACKETS?
