ORDER CODE:	W181C
Part Number:	PLSP150A
Type:	Spool Gun - Light Duty
Amperage (amp):	150
Electrical Pin Connector:	9 Pin Plug
Duty Cycle Rating: CO2:	30% @ 135amp
Duty Cycle Rating: Mixed Gas:	~
Includes U-Groove Roller (mm):	0.8
Wire Size Capability (mm):	0.6 - 0.9
Torch Connector (Type):	Euro Connector

Description

The Binzel style 150 AMP Spool Gun has been engineered for maximum performance when MIG welding softer wires, such as Aluminium. Clear plastic housing allows for full visibility of all moving parts, while the motor is rated for a minimum service life of 1000 hours. This torch also features a specifically designed spool-on DURAFLEX™ Performance Cable system, offering outstanding flexibility, with the highest heat and abrasion resistance.

WELD SOFTER WIRES

Spool guns are perfect for MIG welding softer wires, such as aluminium. The torch itself has a built-in wire spool and wire feeder, which reduces the distance that the wire needs to travel. This gives you a more consistent wire speed and reduces the risk of any bends or 'bird-nesting'.

MAXIMUM VISIBILITY

Clear plastic housing allows for full visibility of all moving parts, allowing you to ensure that your wire is feeding smoothly and consistently. You also have a clear view of your wire spool, so that you know when you need to replace it.

Features

- 150 amp
- 4 metre cable
- 0.8mm U-groove roller
- Euro adaptor
- 9 pin electrical connector
